

Cornhole Tournaments

We generally run or all of our tournaments in a pool play format which allows for all our participants to get more games than a double elimination format offers. Teams are broken down into pools where teams face every team in they're bracket allowing for a clear seeding for our playoffs.

Playoffs are determined by the time available after pool play has ended Generally a handful of the higher seeded teams will advance to the playoffs to face opposing brackets higher seeded teams. The number of teams taken for playoffs is variable by tournament.

GAME PLAY

Decide who goes first (coin flip) then take turns throwing bags with your opponent. You throw one bag, then your opponent, then you, then your opponent, etc. Your feet may not go past the front edge of the board. Also, a tossed bag may not touch the ground. If it hits the ground and bounces up on the board, remove it before any other bags are thrown. If its hanging off the board and touching the ground, remove that as well. When all 8 bags have been tossed to the other side, add up the score (see scoring below). If you earned the most points in that single round, your team will throw first in the next round.

SCORING AND WINNING

Scoring is simple. After all bags have been thrown, a bag remaining on the board is worth 1 point. A bag that went in the hole is worth 3 points. Add up how many points you earned and compare them to your opponents. Equal points cancel each other out so that only one team can score per round. For example, if you scored 5 points and your opponent scored 3, you will add 2 points to your overall score and your team will throw first in the next round. If you scored 6 points and your opponent scored 6 as well, there will be no points awarded and whoever threw first in the last round will throw first again. A game is won when a team reaches 21 points or more first.
